This Treatment is an Aerial and Ground Application for Terrestrial Plants in the Exposed River Bed and Channels. DO NOT TOUCH PLANTS UNTIL DRY

The property owners in this area are planning to have the area chemically treated to control Terrestrial Plants (cottonwoods, cattails and willows). This notice is being circulated in accordance with Department of Environment, Great Lakes and Energy (EGLE) procedures. Below is a list of herbicides that **may** be applied to the lake and the associated use restrictions. On the day of treatment, signs will be posted along the shoreline within the treatment areas that indicate what products were used and specific water use restrictions that apply:

Chemical product/active ingredient	Chemical trade name	Do Not Use this water for swimming or bathing until	Do Not Use this water for ornamentals or turf irrigation until	Do Not Use this water for domestic purposes or agriculture irrigation until	Do Not Use this water for livestock watering or similar purposes until
Glyphosate	Aquaneat	1 Day(s)	N/A	N/A	N/A
Triclopyr liquid	Vastlan, Garlon 3A, Renovate 3,	1 Day(s)	120 Day(s) or until approved assay indicates 1ppb or less; No restriction for established turf/grasses	120 Day(s) or until assay indicates 1ppb or less. N/A on domestic	N/A
PLM Blue: water dye (tracer), Cygnet Plus: Adjuvant				No Restrictions on swimming, bathing, irrigation, domestic purposes or livestock watering.	

For a complete listing of all product labels, please see our website.

N/A= Not Applicable INDEF= Indefinite

***Site-Specific recommendations to limit ornamental irrigation with Renovate granular treated water will typically last 2-14 days. Contact PLM for further information.**

The chemicals used for Aquatic Nuisance Control are registered by the U.S. Environmental Protection Agency and the Department of Environment, Great Lakes and Energy. The potential for damage to fish and other non-target organisms is minimal provided that the product is used as directed on the product label and the permit. To minimize the possible effects on health and the environment, the treated water is restricted for the above purposes.

Method of Application: Chemical application will be made via boat, back pack, and/or land vehicle applying liquid surface products by surface spray and/or injection. Granular product application will be surface broadcast.

2022 TENTATIVE TREATMENT SCHEDULE

Sanford Lake (Edenville Township) has been scheduled for week of:

Date	Description	Date	Description
9/12/2022	Initial Treatments	9/26/2022	Survey of Treated Areas
9/19/2022	Follow up Treatments to finish		

EGLE permitting restrictions, national holidays, and/or weather conditions may influence the timing of treatments throughout the 2022 season. PLM treats each lake according to a schedule or season plan, established with the cooperation of your lake association, lake board or residents on the lake. The treatment schedule is approximate. Please watch your shoreline for the posting of the 8.5x11 inch, yellow or green signs. The signs will indicate the date of the treatment, the products used, and any restrictions on the use of treated water for swimming, watering lawns, etc.
